

Administrative Regulation

State Approval of Buildings and Other Structures

Approval by the state Department of General Services is required for the following types of construction:

- A. All buildings which house students and teachers
- B. All buildings that are entered by students or teachers
- C. All building modifications which affect the building structurally
- D. All fences, bleachers, outdoor lighting structures, etc., which could cause injury to students and teachers if such structures were to fall
- E. All non-structural building changes costing more than \$10,000

Buildings that are used solely for storage must be posted, stating that students and teachers may not enter.

Attachments to buildings are permitted if such structures are of a minor nature.

Structures to be built by community groups will be processed through the Office of Business Services.
